

German Autonomy Summit

2025 German Autonomous Days

10th – 11th December, Munich, Germany

The goal of the **German Autonomous Days** is to connect academia and industry, showcasing innovations in robotics and intelligent transportation systems and fostering collaboration between the RAS and ITSS communities. The event will highlight advances in autonomy, perception, motion planning, and intelligent mobility.

Held at the **TUM Institute for Advanced Study in Garching**, this two-day forum will gather early-career researchers and industrial partners from across Germany and Europe.

The program will feature:

- keynote speakers,
- technical presentations,
- poster sessions,
- award ceremonies recognizing the best PhD and poster contributions
- networking opportunities.

Fellowship opportunities are available, such that attendees will have their travel expenses covered for up to \$700, in accordance to [IEEE travel regulations](#).

Important Dates:

30th Nov: Fellowship deadline

10th - 11th Dec.: Meeting date

Venue:

TUM Institute for Advanced Study
Lichtenbergstraße 2a, 85748 Garching

Registration:

ITSS Members: ?€

Non ITSS Members: ?€

Fellowship awardees are exempt from registration fees?
